Gary,

Alonzo is still getting the info for your table. In the meantime let me tell you that we have contracted for the removal of Tanks 10 and 27, which are the two large tanks that we just cleaned out. Either this afternoon or tomorrow the fiberglass insulation is being removed and then the shears will get to work.

We're also waiting on a proposal to remove (recycle) much of the former refinery.

We have been in contact with the TCEQ and as of today (third additional requirements) we will have provided everything they need for the discharge permit.

Stephen Halasz
Program Manager

This Email message contained an attachment named image001.jpg which may be a computer program. This attached computer program could contain a computer virus which could cause harm to EPA's computers, network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced into the EPA network. EPA is deleting all computer program attachments sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you should contact the sender and request that they rename the file name extension and resend the Email with the renamed attachment. After receiving the revised Email, containing the renamed attachment, you can rename the file extension to its correct name.

For further information, please contact the EPA Call Center at (866) 411-4EPA (4372). The TDD number is (866) 489-4900.
